reproduction device, and a digital camera.

⁵⁶
~~65~~. An electronic device having the semiconductor device of claim ²⁰~~29~~, wherein said electronic device is selected from the group consisting of a portable telephone, a video camera, a mobile computer, a goggle type display, a personal computer, an electronic game equipment, an image reproduction device, and a digital camera.

⁵⁷
~~66~~. An electronic device having the semiconductor device of claim ²¹~~30~~, wherein said electronic device is selected from the group consisting of a portable telephone, a video camera, a mobile computer, a goggle type display, a personal computer, an electronic game equipment, an image reproduction device, and a digital camera.

⁵⁸
~~67~~. An electronic device having the semiconductor device of claim ²²~~31~~, wherein said electronic device is selected from the group consisting of a portable telephone, a video camera, a mobile computer, a goggle type display, a personal computer, an electronic game equipment, an image reproduction device, and a digital camera.

⁵⁹
~~68~~. An electronic device having the semiconductor device of claim ²³~~32~~, wherein said electronic device is selected from the group consisting of a portable telephone, a video camera, a mobile computer, a goggle type display, a personal computer, an electronic game equipment, an image reproduction device, and a digital camera.

REMARKS

This amendment is being submitted to cancel the non-elected claims (pursuant to the restriction requirement and election in the parent application for which the present application is a divisional application) and to add further claims directed to the elected invention, a device. Accordingly, it is requested that this amendment be entered.
